WOMEN, NATURE, SCIENCE

KYOUNG AE CHO: *ONE AT A TIME*

More information: <http://lydensculpturegarden.org/exhibitions/women-nature-science-kyoung-ae-cho-one-time>

The third in a series of exhibitions that examine--in various combinations and with some latitude for digression--women, nature and science. Kyoung Ae Cho presents recent, or recently completed, work. Much of it involves the painstaking collection of things over a long period of time, as in *M-a-r-k-i-n-g*, which references a Korean

custom of collecting one's own hair as it is shed in the course of daily life; or the slow accretion of small objects to produce a whole, as in her 10-foot-square quilt of artificial flowers. Cho's practice is never far from nature: she collects fallen leaves and twigs for her hangings and closely observes the flowers and insects in her garden, recording their behavior in startling, almost voyeuristic photographs.

Ongoing

YEVGENIYA KAGANOVICH: *grow*

More information: <http://lydensculpturegarden.org/exhibitions/artist-residence-yevgeniya-kaganovich>

Yevgeniya Kaganovich's durational installation, *grow*, occupies Lynden's interstitial spaces. The plant-like forms, made from manipulated recycled plastic bags, will grow and spread over the period of a year or so, eventually spreading to other locations. Their growth rate is determined by the number of bags accumulated in an official recycling bin at Lynden. New plantings are made at monthly *grow* workshops (see Workshops, below).

WORKSHOPS & ACTIVITIES FOR ADULTS AND FAMILIES

TAI CHI IN THE GARDEN

A four-week class session with Angela Laughingheart

Sundays, June 1-22, 2014 - 2-3:30 pm

Wednesdays, June 4-June 25, 9 am-10:30 pm

Fee: \$40/\$32 members

More information and to register: <http://lydensculpturegarden.org/yoga-tai-chi>

Fiber artist Angela Laughingheart offers two outdoor Tai Chi/Qigong classes in June, one on Wednesdays and the other on Sundays. "Outdoor practice allows for the best harmonization with Nature," observes Laughingheart. Tai Chi and Qigong

are soft moving sequences, developed by the Chinese for health, longevity and self-defense. These exercises regulate the body, breathing, and mind of the practitioner to bring the human *qi* (bioelectricity) system to a higher and more balanced state. Using the same energy paths as an acupuncturist, we adjust the qi flow with movements instead of needles. No experience is necessary. Handouts for home practice provided. Angela Laughingheart is a certified Tai Chi Instructor with Yang's Martial Arts Association, International and has been a lecturer at the UWM College of Health Science for nine years.

**WHAT IS THE SHAPE OF YOUR BODY AS IT MOVES THROUGH THE WORLD?
A POETRY WORKSHOP WITH WRITER-IN-RESIDENCE BHANU KAPIL**

June 1, 2014 - June 5, 2014 (workshop meets at Lynden June 2-5 in the afternoon)

Fee: \$250/\$225 for members of Lynden or Woodland Pattern (one discount only).

More information or to register:

<http://lydensculpturegarden.org/calendar/bhanu-kapil>

Lynden Sculpture Garden and the Woodland Pattern Book Center offer a weeklong-residency at Lynden with poet and writer-in-residence Bhanu Kapil. "We will create posture-gesture sets in the energetic domain of the sculptures we encounter. How can we link our writing-to-be to the garden we are in? How might the sculptures support our work in powerful, non-verbal ways? The dream of the workshop is to extend the somatic and contemplative gestures already present in our writing, and to transform them into postures, movement practices, sensorimotor sequences and bodily progressions of different kinds." Kapil teaches at Naropa University's Jack Kerouac School of Disembodied Poetics in Boulder, Colorado, and at Goddard College in Vermont. Recent workshops have engaged architecture, animal studies, performance art, and memory as ways to approach contemporary writing. Bhanu maintains a blog, [Was Jack Kerouac A Punjabi?](#), documenting daily and creative practices of all kinds. She also has a long-term private practice as a palmist and bodyworker, with an interest in somatic trauma therapies and Ayurvedic energetics. For several years, she has been incubating her works through performances in India, England and throughout the U.S.

Yevgeniya Kaganovich and her student assistants take up residence in the studio to make the next "planting" of *grow*, Kaganovich's durational installation. Drop in to watch or participate as Kaganovich fuses the layers of plastic to create a surface similar to leather or skin, molds the skin into plant-like volumes, stuffs the volumes with more bags, and connects the forms with plastic bag "thread." cutting sheets and strips; fusing sheets and tubes; sewing bulb forms and connecting them to bases; crocheting tubes and necks; stuffing stalks; and assembling the plants.

CERAMIC HANDBUILDING: TRAYS, TILES AND TRIVETS

Working in clay is deeply satisfying, and making pottery allows one to explore aesthetics and function simultaneously. In *Trays, Tiles, and Trivets* we will continue to work with porcelain slabs. The focus will be on different surface decoration techniques such as stencils, image transfer, various carving methods, and adding underglazes for color. With changes in scale and minor additions our flat designs will magically turn into functional trays, tiles and trivets. Bring textures and objects to press into the clay as well as images and designs that you would like to see take form on your pieces. They will then be fired and finished with a clear glaze to protect the surface and make them functional.

In the warmer seasons, we offer a monthly docent-led "patio tour" for those with limited mobility. Mrs. Bradley, who collected the more than 50 monumental

sculptures at Lynden between 1962 and 1978, liked to be able to see a great deal of the sculpture from her seat in the corner of the porch, so the patio offers an excellent view of much of our collection. The 45-60 minute tour, conducted from the patio of the house, introduces visitors to the history of the Lynden Sculpture Garden, surveys the sculptures visible from the patio, and takes a closer look at those nearby.
